ICT Lab Week 8 Assignment

- Make a basic HTML single page website satisfying the following conditions:

    o Title of the website must be your NU ID
    o The main heading must be your name
    o The website should have an image of yours with a caption but the image link must be from a website that is hosted (like Facebook, Twitter or Imgur and not a locally stored file)
    o The website should have at least a 5 line paragraph about yourself
    o Make sure to also include links to other websites in your paragraph (for example if you mention you are studying at FAST NUCES then a redirection link to their website).
    o Then, recreate the table from Question 2 of the Excel Lab Tasks (ICT Lab Week 4 on Google Classroom), using HTML code (images not allowed).
    o Make sure to personalize your work by adding different font styles, background color/ images.
